Home Page:

Description: The home page serves as the main landing page for the ITA chatbot platform. It provides an overview of the features available and welcomes users to the platform.

Functionality: Users can navigate to different sections of the platform from the home page, including the login/signup pages and student/professor mode pages.

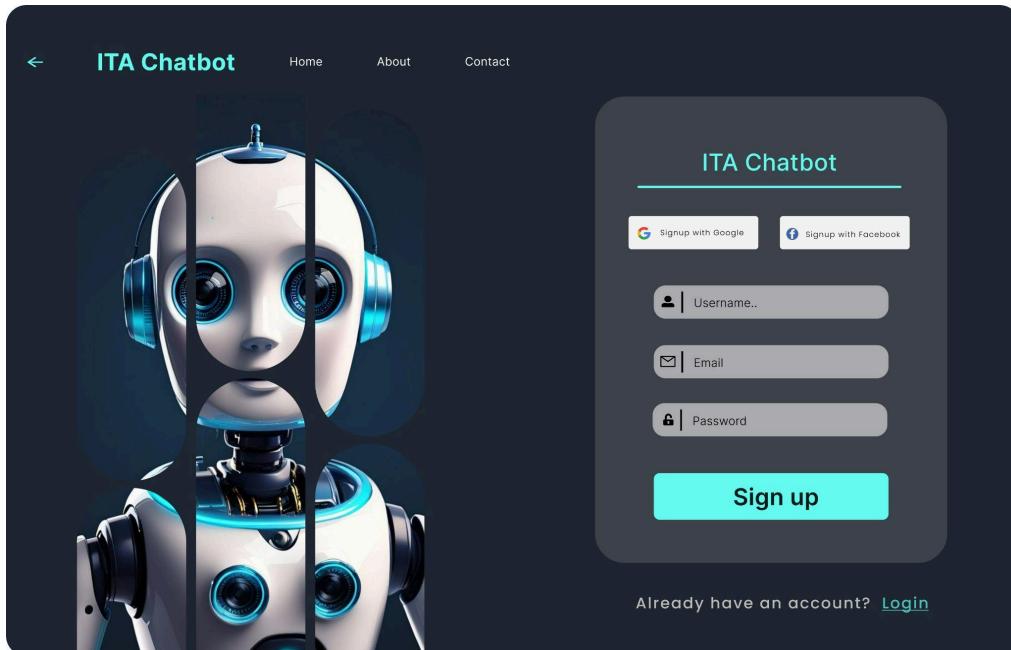

### Login Page:

Description: The login page allows registered users to access their accounts by entering their credentials.

Functionality: Users can input their username and password to log in securely. Error handling mechanisms are implemented to handle incorrect login attempts.

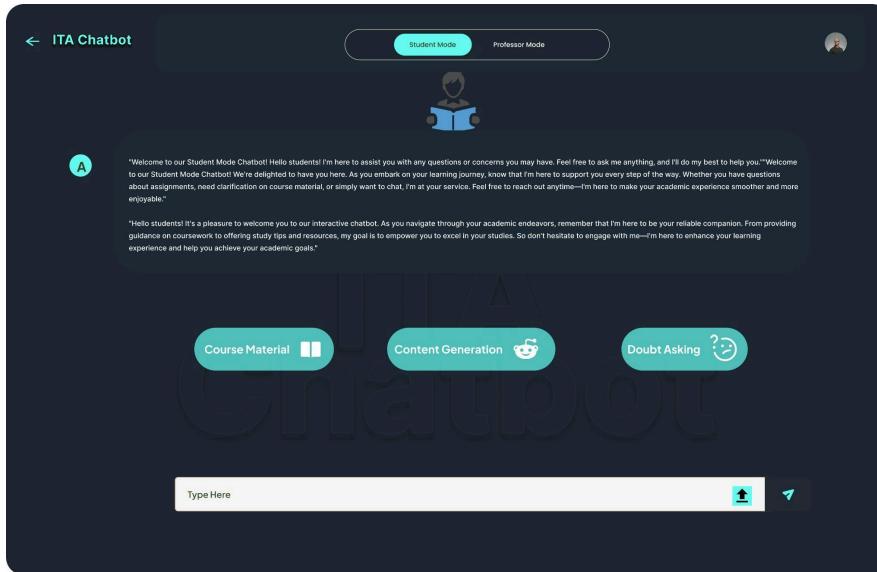

### Signup Page:

**Description:** The signup page enables new users to create an account on the ITA chatbot platform.

**Functionality:** Users can fill in required fields such as username, email address, and password to create an account. Validation checks ensure that entered information is accurate.

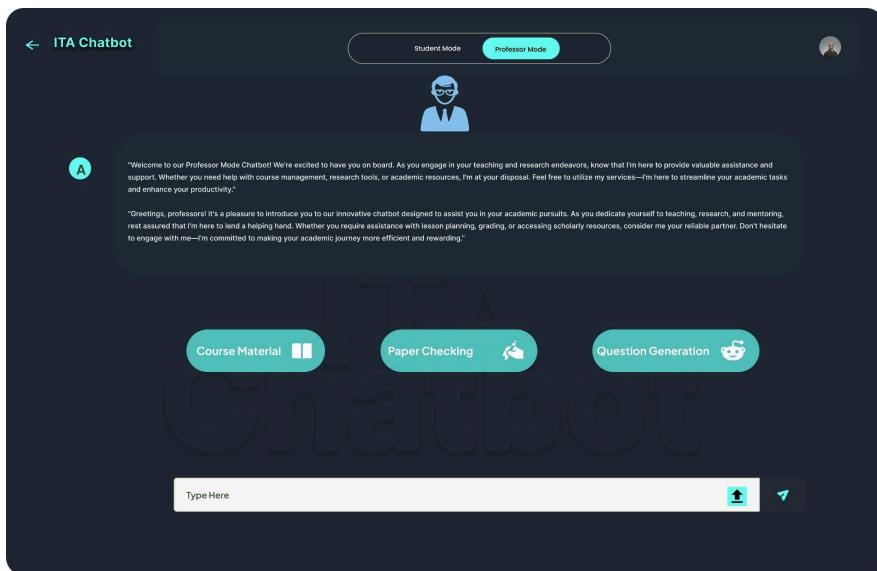

### Student Mode Page:

**Description:** The student mode page is where students interact with the ITA chatbot to receive personalized assistance and support.

**Functionality:** Students can ask questions, seek clarification on topics, and receive recommendations for learning resources. The chatbot utilizes natural language processing to understand and respond to user queries effectively.

### Professor Mode Page:

Description: The professor mode page provides educators with administrative tools to manage their classes and student interactions.

Functionality: Professors can view student progress, assign tasks, and provide feedback through the chatbot interface. Additionally, they can access analytics and reports to monitor student performance.

## Contact Us Page:

**Contact Us**

If you have any questions, feedback, or issues regarding the Teaching Assistant Chatbot, please feel free to reach out to us. We're here to help!

**Feedback Form**

We value your feedback! If you'd like to share your thoughts or suggestions about the Teaching Assistant Chatbot, please fill out the form below:

[Form link](#)

Thank you for using the Teaching Assistant Chatbot! We appreciate your support and look forward to hearing from you.

**Contact Information**

Phone: 9986789567 Email: abc@gmail.com

Description: The contact us page allows users to reach out to the platform administrators for support or inquiries.

Functionality: Users can fill out a contact form with their name, email address, and message. Upon submission, the form is sent to the platform administrators for review and response.

## About Page:

**About Us**

Welcome to the Teaching Assistant Chatbot, your virtual assistant designed to enhance the learning experience and support students, teaching assistants, and professors alike.

**Our Mission**

At the Teaching Assistant Chatbot, our mission is to revolutionize the way students access educational support and resources.

**What We Offer**

Personalized Assistance: Our chatbot offers personalized assistance tailored to the unique needs of each user.

Description: The about page provides information about the ITA chatbot platform, its objectives, and the team behind its development.

Functionality: Users can learn about the platform's mission, vision, and values. Additionally, they can find contact information for the development team and access resources for further information.

**Baseline Results Evaluation:**

The baseline implementation of the ITA chatbot platform includes essential features such as user authentication, mode selection (student/professor), and basic interaction capabilities. Initial testing has been conducted to ensure functionality and usability across different pages and user modes.

User feedback is being collected to identify areas for improvement and refine the user experience.

**Conclusion:**

The baseline results documentation outlines the key features and functionalities implemented in the ITA chatbot platform. While the baseline version provides a solid foundation, further enhancements and optimizations will be made based on user feedback and ongoing development efforts.
